CAREER OBJECTIVE

Software Development Intern with hands-on experience in building and maintaining web applications using PHP, MySQL, and modern web technologies. Experienced in developing admin panels, implementing backend logic, and working on real-world systems such as CRM and banking platforms. Strong understanding of system design, debugging, and version control, with a focus on building scalable and efficient applications.

TECHNICAL SKILLS

- **Programming & Development:** Python, Java, PHP, C, JavaScript, HTML, CSS
- **Databases:** MySQL, MongoDB, SQLite
- **Backend & Concepts:** REST APIs, Backend Development, System Integration
- **Tools & Platforms:** Git, GitHub, VS Code, Hostinger, Postman
- **Data & Analytics (Basic):** Excel (Data Handling, Pivot Tables), Power BI (Basic Dashboards)
- **AI & Machine Learning (Foundation Level):** Supervised Learning, Model Basics, Data Preprocessing
- **Core Concepts:** Data Structures, Operating Systems, Computer Networks, DBMS
- **Exposure:** Node.js (Basic), Cloud Fundamentals (AWS, Azure, GCP Basics)
- **Soft Skills:** Problem Solving, Communication, Team Collaboration, Event Coordination

EXPERIENCE

✓ Software Development Intern — JBB Technologies Pvt. Ltd.

Duration: Jan 2026 – Present | Chhatrapati Sambhajinagar | Hybrid

- Developed admin panel modules for ServiceCRM and JPCB Bank projects
- Implemented backend logic using PHP and integrated with MySQL database
- Built CMS features and handled dynamic data operations
- Debugged session configuration issues and resolved database errors
- Implemented role-based access control and notification system
- Performed integration testing for frontend, backend, and database
- Used GitHub for version control and team collaboration

✓ Research & Development Intern — Encrypta (Sindhvi Technologies Pvt. Ltd.)

Duration: Oct 2025 – Dec 2025 | Roorkee | Online

- Assisted in research and development of secure application concepts
- Analyzed system requirements and contributed to problem-solving tasks
- Gained exposure to development workflows and secure system design and Git workflow

PROJECTS

1. ServiceCRM System (Web Application)

[\(URL\)](#)

- Developed admin panel using PHP and MySQL
- Implemented subscription management and notification system
- Designed CMS modules for content management
- Integrated frontend with backend and database

2. JPCB Bank Project (Web Application)

[\(URL\)](#)

- Built admin panel and CMS functionalities
- Implemented backend logic and database integration
- Improved UI design and system workflow
- Developed modules for complaint tracking and management

3. AI Powered Fitness Tracking System

[\(URL\)](#)

- Developed a full-stack application using React, Node.js, and MongoDB
- Implemented posture detection using MediaPipe and OpenCV
- Designed REST APIs and responsive UI

4. AI Powered Budget Tracking System

[\(URL\)](#)

- Built MERN stack application for expense tracking
- Implemented authentication and data visualization
- Improved financial insights using chart-based analysis

EDUCATIONAL QUALIFICATIONS

- **Bachelor of Technology (B.Tech) – Computer Science and Design Engineering**
Maharashtra Institute of Technology, Chh. Sambhajinagar (M.S)
Duration: Nov 2022 – Jun 2026 | **CGPA:** 9.00
- **Honors in Artificial Intelligence and Machine Learning**
Maharashtra Institute of Technology, Chh. Sambhajinagar (M.S)
Grade: A+
- **12th (HSC) – Shri Dadasaheb Dhanwate College, Nagpur | 2022 | Percentage:** 79% (Aggregate)
- **10th (SSC) – Prabodhan High School, Nagpur | 2020 | Percentage:** 80% (Aggregate)

CERTIFICATIONS

- **Cloud Computing** — NPTEL (IIT Kharagpur)
- **AWS Cloud Practitioner Essentials** — Coursera
- **Data Analytics Essentials** — Cisco

ADDITIONAL DETAILS

- Strong problem-solving and debugging skills
- Good understanding of real-world software development workflows
- Effective communication and teamwork abilities
- Interest in backend development, cloud technologies, and system design
